SUPPLEMENTAL NARRATIVE FOR OFFICER ALLISON D CAPRIGNO

Ref: 16-954-OF

Entered: 10/27/2016 @ 1143 Entry ID: ADD
 Modified: 10/28/2016 @ 1039 Modified ID: ADD
 Approved: 11/13/2016 @ 1045 Approval ID: GEC

The search warrant was executed at 31 Jonathan Road at 0925 on October 18, 2016. Myself with Sgt. Chase, Sgt. O'Donnell, Officer Yates, Officer Viera, Officer Montano, Officer Kelly and two officers on the Street Crimes unit made entry into the house. After the house was secured Animal Control Officer's Corie Bliss, Jana McMilan and Anna Jenoski assisted inside the house. A strong smell of ammonia was very apparent upon walking into the house and was strong smelling in all parts of the house. On the first floor two dogs were housed in a plastic crates in the middle of the kitchen. The dogs had a small amount of water and no food in their crate, their crates were bare with no bedding. The first floor bathroom had a dog inside with some water, laying on a dirty blanket. The bathroom walls had dirty claw marks and the door had a large hole chewed into it from a dog attempting to get out. The living room had multiple piles of feces on the floor and a large pile of feces on top of the dvd player on the floor. The carpets were stained with old urine stains and fecal matter in the living room. On the second floor, in the master bedroom located in a water trough were 8 puppies on a soiled towel. The bedroom was very messy, with dirty towels on the floor covering up urine stained spots on the carpet. The bathroom adjacent to the master bedroom showed marks on the walls and doors that dogs had been stored inside. On the floor were 3 empty cooking pans with no water inside of them. The second bedroom was very messy as well, the mother of the puppies was found hiding under the bed in that room. That room also had urine stains on the carpet. The third bedroom appeared to be a childrens room with two twin beds, clothes and blankets were strewn all over the room. The front office had a large amount of fecal matter near the doorway and urine stained carpets. In the basement the chain link enclosures that were visible on my previous visit had been removed (they were outside covered with a tarp next to the garage, the panels had fecal matter stuck to them). The cement floor had been cleaned and room was reorganized with tools and shelving. Inside the garage to the left of the door was a dog housed in a plastic crate, to the right of that dog was another dog housed in a plastic crate. Both dogs did have some water and were sitting on a bare dirty plastic crate bottom. In the back corner of the garage was a chain link enclosure with a dog inside, inside that enclosure the dog had fecal matter and urine, a small amount of water was available for that dog. Next to chain link enclosure were two smaller crates with a dog inside each of the crates. These dogs also were housed in fecal and urine soiled crates lined with ripped newspaper. These dogs had empty food and water bowls. In the backyard there was a dog housed outside in a chain link enclosure. Inside a shed in the front yard there was bags of trash filled with fecal and urine matter newspaper. All of the dogs were removed from the house and brought to Rockingham Emergency Veterinary Hospital to be examined. Property seized from 31 Jonathan Road included a dog adoption log, veterinary and adoption paperwork for multiple dogs, prescriptions for several dogs, and 10 adult dogs and 8 puppies. Dog # 1 - Ally:back left bedroom second floor (no microchip) Rottweiler mix female, mother to eight puppies (2 females and 6 males in master bedroom) approximately 3 weeks old. Under weight, skin inflammation/sores and Hook worm and Giardia positive. All puppies being treated

for Hook worms and Giardia.

Dog #2 – Van:garage (Chip # 911002001431812) Golden Retriever mix unneutered male, urine/fecal scalding on feet, Hookworm and Giardia positive.

Dog #3 – Lilly:kitchen (Chip #985112006641498) gray and white Pitbull mix female, urine/fecal scalding on feet, open sore on right hind foot-paw infection.

Dog #4 – Oreo:kitchen (no microchip) black and white Pitbull mix female, urine/fecal scalding on feet, skin inflammation and flakiness, Hookworm and Giardia positive.

Dog #5 – Tikki:first floor bathroom (Chip#0A13374617) gray brindle Pitbull female, underweight, urine/fecal scalding on feet.

Dog #6 – Kingston:garage (Chip # 053048536) red Pitbull male, urine/fecal scalding on feet, skin infection.

Dog #7- Tip:garage (Chip# 911002001431732) Black Lab mix female, urine/fecal scalding on feet, Giardia positive.

Dog #8 – Honey:garage (Chip#0A121E774E) white with tan spots Pitbull mix female, urine/fecal scalding on feet, urine stains on rear legs and behind, Hookworm and Giardia positive.

Dog #9-Bravo: garage (no microchip) chocolate brown Pitbull male, underweight, skin inflammation and flakiness.

Dog #10 – Brock:backyard (no microchip) brindle Pitbull mix male, urine/fecal scalding on feet, skin inflammation, and Giardia

Derry, New Hampshire Animal Control was contacted to myself about a stray dog that was found in their town days prior to the search warrant. The dog was a Boxer with two blue eyes and the dog had a very unclean smell to it and fecal matter stuck to him. Pictures were forward to myself and I identified the dog has the one I had seen in his basement. The next day Michele Stone had emailed the Granite State Dog Recovery listing for that dog also confirming that was Pooch from the Rocheville residence.

New Hampshire Division of Child Youth Services were notified of this case. I spoke with Tammy Theriault at the Central Intake Office on October 28, 2016 at 1015. A level one case is already opened with Robert Lynch handling the investigation. The Pelham Fire Dept. had also made notification to their department about this residence. I forward via email the pictures of the residence and my report.
